

RE — Salvation

We will be sharing the story of the Good Samaritan. We will think about how we can help others and about forgiveness.

Physical Development

We will understand the need for safety when tackling new challenges and practice some appropriate safety measures without direct supervision. We will continue to manage our own basic hygiene and personal needs, and understand the importance of physical exercise for good health. We will hold a pencil effectively to write recognisable letters, most of which are correctly formed.

Communication & Language

We will listen attentively in a range of situations, and be able to follow a story without pictures or props. We will use a range of tenses, and use intonation, rhythm and phrasing to make the meaning clear to others. We will introduce a storyline into our play.

Personal, Social & Emotional Development

We will describe ourselves in positive terms and talk about our interests and abilities. We will continue to take steps to resolve conflicts with other children by looking for a compromise. We will adjust our behaviour to different situations and take changes of routine in our stride.

Hedgehog Class

Early Years Foundation Stage

Summer Term 1 2019

It's A Small World!

Literacy

We will listen to and join in with stories and poems, showing awareness of rhyme and alliteration. We will use vocabulary and forms of speech that are increasingly influenced by our experience of books. We will link sounds to letters, naming and sounding the letters of the alphabet, and use some clearly identifiable letters to communicate meaning, representing some sounds correctly and in sequence. We will write short sentences in meaningful contexts and begin to include some irregular common words in our writing. We will begin to tell our own stories.

Maths

We will continue to practise counting to 100, writing numbers 1-10, and ordering numbers 1-20. We will notice the patterns made on a 100sq when we count in 2s, 5s and 10s. We will investigate sharing through practical doubling and halving amounts, and we will explore 2D and 3D shapes. We will think about how time is measured in different ways, and compare times on analogue and digital clocks.

Expressive Arts & Design

We will be exploring how different media can be combined to create new effects, and select the tools and techniques needed, adapting our work where necessary. We will play cooperatively as part of a group to develop and act out a narrative.

Themes for this term:

Woodland	Minibeasts
Growing	Children's interests
Materials	

Understanding the World

We will explore similarities, differences and patterns in relation to materials and living things, finding out about man-made and natural objects. We will investigate change in relation to life-cycles of plants and animals. We will show care and concern for living things and the environment, supported by our trips to Basildon Park woodland.
